

MEER MOHAMMAD FAISAL

Full Stack Engineer — GenAI Applications

fmd35585@gmail.com | 8409335800 | Hyderabad, Telangana | LinkedIn | GitHub | Portfolio

Summary

Full Stack Engineer with production experience in **Node.js**, **Express**, **React**, and **MongoDB**, specializing in **GenAI integration** and **LLM-powered application development**. Built and deployed end-to-end AI platforms leveraging **OpenAI** and **Groq APIs**, including **RAG pipelines**, **prompt orchestration**, and **ATS-aware resume generation**. Strong in scalable **REST API design**, **JWT/RBAC authentication**, database optimization, and cloud deployment (**AWS EC2**, **Docker**, **CI/CD**). Solved **450+ DSA problems**. Seeking backend, full-stack, or AI-integrated engineering roles.

Technical Skills

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, RBAC, Middleware Architecture, API Rate Limiting, Input Validation, Error Handling.

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5/CSS3, React Hooks, Component-Based Architecture, REST API Integration.

AI Integration: OpenAI API, Groq API, LLM Integration, RAG Pipelines, Vector Databases, Prompt Engineering, Structured Output Parsing, LangChain (Familiar).

Database: MongoDB (Proficient), PostgreSQL, Redis, Schema Design, Query Optimization, Compound Indexing.

Deployment/Tools: Docker, AWS EC2, GitHub Actions (CI/CD), Git/GitHub, Postman, VS Code, Vercel.

Languages: JavaScript, TypeScript, Python, C++, SQL.

Experience

Dehix Nov 2025 - Jan 2026

Software Engineer Intern

- Architected **15+ production REST APIs** in **Node.js/Express** with modular middleware chains, reducing average **API latency** by **~30% (420ms → 290ms)**; implemented centralized error handling, request validation, and structured logging across 3 service modules.
- Designed multi-role **authentication system** using **JWT access/refresh token rotation** and **RBAC middleware**, securing **100% of protected endpoints** across Admin, Freelancer, and Client roles.
- Re-engineered **8 MongoDB collection schemas** with **compound indexing** and projection-based queries, eliminating full-collection scans and cutting **read latency** by **25%**.

Projects

RoleMatch AI - Job Prep | *React, Node.js, MongoDB, GenAI, Groq API* | Live | Code Feb 2026

- Designed multi-layer backend with dedicated service classes for **resume parsing**, **JD analysis**, and **LLM orchestration**. Built prompt pipeline with **JSON schema enforcement** and **structured output parsing** — eliminating fragile regex parsing and delivering typed data objects to React frontend.
- Deployed on **AWS EC2 with Docker** with **CI/CD via GitHub Actions** (zero-downtime deployment). Provides ATS-friendly resume generation, skill gap analysis, and adaptive interview questions.

FaisCode - AI Coding Platform | *React, Node.js, MongoDB, GenAI, OpenAI API* Sep 2025

- Engineered **stateful prompt chaining system** with context window management — each AI turn receives prior problem history for iterative, category-aware code generation. Delivers problem explanations, solution approaches, starter templates, and hidden test cases.
- Designed **MongoDB schema** for problem categories, user sessions, and generation history with **indexing on userId + category** for **sub-50ms** leaderboard queries. Secured all AI endpoints with **JWT + RBAC** and implemented **per-user API rate limiting** using in-memory counters to prevent LLM cost overruns.

FaisGPT - LLM Chat Assistant | *Python, Node.js, LLM, React* | Live | Code Jan 2025

- Built conversational AI assistant using **OpenAI APIs** with **multi-turn context management** — maintaining session memory across conversation turns for coherent, context-aware responses.
- Developed scalable **Node.js backend** with modular API design and extensible session management, laying groundwork for personalization features.

Education

Technocrats Institute of Technology

Bachelor of Technology in Computer Science - AIML (CGPA-8.40)

Sep 2022 - May 2026

Bhopal, Madhya Pradesh

Certification

- Oracle Cloud Infrastructure (OCI) – Generative AI Professional | Credential
- Oracle Cloud Infrastructure (OCI) – AI Foundation Associate | Credential
