

MEER MOHAMMAD FAISAL

fmd35585@gmail.com | 8409335800 | Hyderabad, Telangana | LinkedIn | GitHub | Portfolio

Summary

Software Engineer Intern specializing in building production-ready **full-stack (MERN)** applications using **React, Node.js, Express, and MongoDB**. Focused on scalable **REST API development, JWT authentication, RBAC, and cloud deployment**. Strong in **debugging, troubleshooting, performance optimization, and backend development**. Experienced in integrating **LLM-based AI features (OpenAI APIs)** with a strong **DSA background (450+ problems)**.

Technical Skills

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication, RBAC, Middleware, API Design, Error Handling, Input Validation.
Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design, Component-Based Architecture, React Hooks, REST API Integration.
Languages: C, C++, JavaScript, TypeScript, Python, SQL.
Database: MongoDB, PostgreSQL, Redis, Database Schema Design, Query Optimization, Indexing.
AI Integration: OpenAI API, LLM Applications, RAG, Vector Databases.
Deployment/Tools: Git/GitHub, Docker, GitHub Actions (CI/CD), AWS EC2, Postman, VS Code, Jupyter Notebook.

Experience

Dehix Nov 2025 - Jan 2026

Software Engineer Intern

- Developed and maintained scalable **RESTful backend services** using **Node.js** and **Express.js**, improving **API response time** by up to **30%** through modular architecture and optimized request handling.
- Implemented secure **authentication and authorization** workflows using **JSON Web Tokens (JWT)**, token validation, and **role-based access control (RBAC)**, ensuring secure access to protected **APIs**.
- Designed and optimized **MongoDB schemas** and queries, reducing **data retrieval latency** by up to **25%** while supporting scalable, high-performance **backend systems**.

Projects

RoleMatch AI - Job Prep | *React, Node.js, MongoDB, GenAI, Groq API* | Live | Code Feb 2026

- Designed a **full-stack AI platform** that analyzes **resumes and job descriptions** to identify **skill gaps** and generate **adaptive interview questions** with **personalized roadmaps**, reducing unstructured prep time by **nearly 50%**.
- Implemented a **production-ready system** with **LLM integration, JWT, RBAC, and ATS-friendly resume generation** delivering a complete end-to-end job preparation solution

FaisCode - AI Coding Platform | *React, Node.js, MongoDB, GenAI, OpenAI API* Sep 2025

- Developed an **AI coding assistant** generates **problem explanations, solution approaches, starter templates, and hidden test cases**, improving efficiency by **around 40%** and reducing manual effort by **approximately 35%**.
- Integrated **JWT authentication** with **RBAC**, protecting **100% of AI-powered APIs**, with an **intelligent code generation pipeline** enabling **iterative learning** across problem categories.

FaisGPT - LLM Chat Assistant | *Python, Node.js, LLM, React* | Live | Code Jan 2025

- Created a **custom AI conversational assistant** using **LLMs and OpenAI APIs**, handling **multi-turn conversations** with **contextual memory** and improving response relevance through **session continuity**.
- Built a **scalable Node.js backend** with **secure API handling** and **modular architecture**, supporting seamless future extensions like **personalization** and reducing average **response latency**.

Education

Technocrats Institute of Technology Sep 2022 - May 2026

Bachelor of Technology in Computer Science - AIML (CGPA-8.40)

Bhopal, Madhya Pradesh

Certification / Achievement

- Oracle Cloud Infrastructure (OCI) – Generative AI Professional | Credential
- Oracle Cloud Infrastructure (OCI) – AI Foundation Associate | Credential
- Solved 450+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Built and deployed backend and AI projects, including an AI coding platform and ML-based systems.
